STUDY ABROAD

The Global Education Office (GEO) organizes a wide range of international study, service, and leadership opportunities for the Mason community. Study abroad activities include international programs for undergraduates, graduates, and professionals seeking knowledge and skills necessary to succeed in a culturally diverse society.

BENEFITS

Study Abroad is a great resume-builder. It sets you apart from the regular crowd of job seekers, who have not participated in an international experience. You can enhance your Mason experience and benefit from studying abroad in various ways:

- Gain proficiency in a foreign language
- Adapt to new situations and apply them to “old” habits
- Develop an understanding for different cultures
- Learn how to manage ambiguity
- Grow personally, professionally, and academically

THE MASON ABROAD EXPERIENCE

Experience the Mason classroom in an international setting with fellow peers from Mason. A wide range of customized programs led by Mason faculty are offered during winter break, summer, and the semester. Most programs are open to everyone.

SUMMER SCHOOL & SEMESTER ABROAD

Mason currently works with dozens of partners worldwide to provide quality study abroad experiences at prestigious host institutions in Asia, Africa, Europe, Latin America, and Australia. Course work at these regionally accredited universities does not affect the GPA. Summer school and semester programs are open only to Mason students.

INTERNSHIPS

Internship programs include students from different majors, working and studying in the same location. Course credit varies and is dependent on the length of stay.

CULTURAL TOURS

All tours are open to the general public. Cultural Tours are offered throughout the year. Locations and fees vary. Airfare is usually included in the program fee.
